Share of life insurance in incremental household financial saving

Households are more inclined towards saving and purchasing in long term products, which will likely to increase demand for life insurance in India.

Protection gap for different countries

India's protection gap was 83% as of 2019, the highest among all countries in Asia- Pacific¹

Low life insurance penetration and insurance density² in India

■ Life Insurance Penetration %age FY 2022

■ Insurance Density (in US\$)¹ FY 2022

WELL POSITIONED TO RIDE THE GROWTH IN A HIGHLY UNDERINSURED MARKET BOTH IN TERMS OF PENETRATION AND DENSITY

Source: IRDAI Handbook 2022-23, ¹Insurance density is measured as ratio of premium (in US Dollar) to total population. ²Insurance penetration is measured as ratio of premium to GDP. # Data relates to F.Y. other data relates to calendar year.

Household savings to increase

Household saving as percentage of GDP is 18.22% in fiscal year 2023

Increasing insurable population to fuel industry growth

India's Demographic Dividend

For 2021, India has largest share of young population in the world, with a medium age of 28 Years. About 90% of Indians will still be below the age of 60 years.¹

Income demographics

**Rising Income level to
make insurance
products more
affordable.**

Strong growth in total premium for life insurance industry

Total premium has grown in the range of 10% to 14% in last eight years. Amongst the different player groups, LIC, which holds the maximum 58.87% (FY24) share in total life insurance premium.

Except for the historical information contained herein, statements in this presentation which contain words or phrases such as 'will', 'would', 'indicating', 'expected to' etc., and similar expressions or variations of such expressions may constitute 'forward-looking statements'. These forward-looking statements involve a number of risks, uncertainties and other factors that could cause actual results to differ materially from those suggested by the forward-looking statements.

These risks and uncertainties include, but are not limited to our ability to successfully implement our strategy, our growth and expansion in business, the impact of any acquisitions, technological implementation and changes, the actual growth in demand for insurance products and services, investment income, cash flow projections, our exposure to market risks, policies and actions of regulatory authorities; impact of competition; experience with regard to mortality and morbidity trends, lapse rates and policy renewal rates; the impact of changes in capital solvency or accounting standards, tax and other legislations and regulations in the jurisdictions as well as other risks detailed in the reports filed L.I.C. of India, our holding company. We undertake no obligation to update forward-looking statements to reflect events or circumstances after the date thereof.

The assumptions, estimates and judgments used in the calculations are evaluated internally where applicable and have been externally reviewed. They represent the best estimate based on the Corporation's experience and knowledge of relevant facts and circumstances. While the management believes that such assumptions, estimates and judgments to be reasonable; the actual experience could differ from those assumed whereby the results may be materially different from those shown herein.

THANK YOU
