If death occurs within this period and before the payment of the premium then due, the policy will still be valid and the Sum Assured shall be paid after deduction of the said premium as also unpaid premiums falling due before the next Policy anniversary. If premium is not paid before the expiry of the days of grace, the Policy lapses.

9. **REVIVAL**

Subject to production of satisfactory evidence of continued insurability, a lapsed policy can be revived by paying arrears of premium together with interest within a period of five years from the date of first unpaid premium but before maturity. The rate of interest applicable will be as fixed by the Corporation from time to time.

The Corporation reserves the right to accept at original terms, accept with modified terms or decline the revival of a discontinued policy. The revival of the discontinued policy shall take effect only after the same is approved by the Corporation and is specifically communicated to the Life Assured.

10. **PAID UP VALUE:**

If after at least 3 full years premiums have been paid in respect of this policy and any subsequent premium be not duly paid, this policy shall not be wholly void, but shall subsist as a paid-up policy for a reduced sum.

The Sum Assured of the policy shall be reduced to such a sum (called paid-up value), as shall bear the same proportion to the full Sum Assured as the number of premiums actually paid bears to the total number of premiums stipulated for in the policy, less any survival benefit paid.

The policy so reduced shall, thereafter be free from all liability for payment of the premiums, but shall not be entitled to the Guaranteed Additions from the due date of first unpaid premium. However, the accrued Guaranteed Additions will remain attached to the reduced paid-up policy.

Notwithstanding the benefits available under a fully in force policy, in the case of a reduced paid up policy, no survival benefits shall be payable and the paid-up value along with the accrued Guaranteed Additions, if any, shall be payable only in lump-sum on the expiry of policy term or death of life assured, if earlier.

11. **SURRENDER VALUE:**

The Guaranteed surrender value will be available after the expiry of 3 policy years, provided the premiums have been paid for at least three years. The guaranteed surrender value allowable under this policy is equal to 30 percent of the total amount of the premiums paid excluding the premium for the first year, all extra premiums that may have been paid and the amount of survival benefits paid earlier.

The cash value of any existing guaranteed additions will also be paid.

Corporation may, however, pay special surrender value as the discounted value of Paid up sum assured and Guaranteed Addition, as applicable on date of surrender, provided the same is higher than guaranteed surrender value.

**Suicide:** This policy shall be void if the Life Assured commits suicide (whether sane or insane at that time) at any time on or after the date on which the risk under the policy has commenced but before the expiry of one year from the date of commencement of risk under the policy. In case of death due to suicide during this period the Corporation will not entertain any claim by virtue of this policy except to the extent of a third party's bonafide beneficial interest acquired in the policy for valuable consideration of which notice has been given in writing to the branch where the Policy is being presently serviced (where the policy records are kept), at least one calendar month prior to death.

## **13. COOLING OFF PERIOD:**

## **BENEFIT ILLUSTRATION :**

Statutory warning :

"Some benefits are guaranteed and some benefits are variable with returns based on the future performance of your Insurer carrying on life insurance business. If your policy offers guaranteed returns then these will be clearly marked "guaranteed" in the illustration table on this page. If your policy offers variable returns then the illustrations on this page will show two different rates of assumed future investment returns. These assumed rates of return are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of your policy is dependent on a number of factors including future investment performance."

**Notes :**

i) *This illustration is applicable to a standard (from medical, life style and occupation point of view) life.*

ii) *The non-guaranteed benefits (1) and (2) in above illustration are calculated so that they are consistent with the Projected Investment Rate of Return assumption of 6% p.a.(Scenario 1) and 10% p.a. (Scenario 2) respectively. In other words, in preparing this benefit illustration, it is assumed that the Projected Investment Rate of Return that LIC will be able to earn **throughout the term of the policy** will be 6% p.a. or 10% p.a., as the case may be. The Projected Investment Rate of Return is **not guaranteed**.*

iii) *The main objective of the illustration is that the client is able to appreciate the features of the product and the flow of benefits in different circumstances with some level of quantification.*

**Section 45 of Insurance Act, 1938:**

No policy of life insurance shall after the expiry of two years from the date on which it was effected, be called in question by an insurer on the ground that a statement made in the proposal for insurance or in any report of a medical officer, or referee, or friend of the insured, or in any other document leading to the issue of the policy, was inaccurate or false, unless the insurer shows that such statement was on a material matter or suppressed facts which it was material to disclose and that it was fraudulently made by the policyholder and that the policyholder knew at the time of making it that the statement was false or that it suppressed facts which it was material to disclose.

Provided that nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life assured was incorrectly stated in the proposal.
