Higher income = Higher wealth/education = More demand for Insurance

Rising incomes = Affordability + Awareness = more Insurance products

Household savings to increase

Household saving as percentage of GDP is 18.22% in fiscal year 2023

Share of life insurance in incremental household financial saving

Households are more inclined towards saving and purchasing in long term products, which will likely to increase demand for life insurance in India.

Preference for Financial savings - Faster growth for Life Insurance

Note: All amount pertain to FY 2022-23¹ HH – households; ² Represent last 10 years CAGR; Source: MOSPI.

Protection gap for different countries

India's protection gap was 83% as of 2019, the highest among all countries in Asia- Pacific¹

Low life insurance penetration and insurance density² in India

■ Life Insurance Penetration %age FY 2022

■ Insurance Density (in US\$)¹ FY 2022

WELL POSITIONED TO RIDE THE GROWTH IN A HIGHLY UNDERINSURED MARKET BOTH IN TERMS OF PENETRATION AND DENSITY

Source: IRDAI Handbook 2022-23, ¹Insurance density is measured as ratio of premium (in US Dollar) to total population. ²Insurance penetration is measured as ratio of premium to GDP. [#] Data relates to F.Y. other data relates to calendar year.

Indian Insurance Industry by premium and policies breakup – FY25
